Re: Application for a Toll-Free Short Code

We invite reference to your receipts dated 15th October 2021, being payments made to GAMTEL, QCELL, GAMCEL, AFRICELL and COMIUM in relation to your Toll-Free Short Code application to provide customer care on your Gambia Electricity Restoration and Modernisation Project (GERMP).

The Authority after careful review of your application has the pleasure to inform you that your assigned Toll-Free Short Code has been **GRANTED** as follows:

Category of Service	Service Code to be Issued	Charging Method	Operators Network to be Used to Terminate Calls
Toll-Free	1266	Cost for sending/receiving SMS through your assigned short code number is free for the caller but paid for by NAWEC (GERMP)	GAMTEL, GAMCEL, QCELL, AFRICELL and COMIUM

Please note that this assigned **Short Code 1266** is valid till 2nd December 2022 and NAWEC (GERMP) is required to re-apply should the use of this Short Code be required or inform the Authority of any termination of the short code usage to avoid wrongful invoicing. Correspondingly, NAWEC (GERMP) must ensure that the relevant laws in our country are adhered to.

By a copy of this letter, GAMTEL, QCELL, GAMCEL, AFRICELL and COMIUM are requested to configure the routing of the **Short Code 1266** on your networks to be accessed by your subscribers. In the same vein, GAMTEL, QCELL, GAMCEL, AFRICELL and COMIUM are required to ensure compliance with regards **Toll-Free Call Services** as per the Authority's Guidelines for Short Code application.

We thank you for your cooperation.

Yours sincerely,

Rodine S Renner
